

# TTE<sup>®</sup> GREEN

The Turf Grid for  
the Sponge City

 **HÜBNER-LEE**

**PROTECTION OF THE TURF**

Protection against shear forces due to solid raised fins and underfilling

**GROUNDWATER PROTECTION**

Near-natural rainwater treatment of polluted rainwater  
Protection of groundwater from pollutants

**VITAL GREEN**

Capillary water and nutrient supply  
Extended root zone due to special substrate structure

**EVAPORATIVE COOLING**

Cooling by 5 °C protects from heat islands

TTE® GREEN

**TTE® GREEN**

Fresh air, comfortable temperatures and lush greenery. This is how many of us describe our dream living space. With TTE® GREEN, this wish becomes reality. With TTE® GREEN we can finally integrate green areas into the urban living space on a large scale.

Carbon neutrally produced from **100% recycled post-consumer plastics**

Material **harmless to water and environment**

**Vital and resilient greening** due to special substrate structure

**Positive influence on the urban climate** through decentralised infiltration, evaporation and fine dust binding

**Flexible combination** of greened, paved or mineral surfaces

**TTE® directGREEN**

The instant solution for green parking spaces

PROFESIONALLY PRE-GREENED

QUICK INSTALLATION

IMMEDIATELY USABLE

FLEXIBLE COMBINATION

# YOUR CONTRIBUTION TO CLIMATE PROTECTION

... using 1,000 m<sup>2</sup> of TTE® fastening as an example

## 64,010

This is how many kg of CO<sub>2</sub> equivalent you avoid compared to waste incineration.

## 13,590

Accordingly, so many bags of plastic waste are recycled for your project.

## 168,986

The amount of CO<sub>2</sub> avoided corresponds to a flight of this length (km).
